LaserWriter 8.3.2: Read Me file(7/96)

Article Created: 17 November 1995
Article Reviewed/Updated: 02 July 1996

TOPIC ---

This article contains the Readme file for the LaserWriter 8.3.2 software.

DISCUSSION ---

What is the Macintosh System LaserWriter 8.3.2 Extension?

This system extension fixes two printing problems that may occur on Power
Macintosh 7200, 7500, 8500, and 9500 computers using System 7.5.2. Without these
fixes, your computer may freeze if you attempt to print large documents on a
network printer, or if you try to print any document on a network printer when
the printer is already busy.

To install this extension follow these steps:

1. Locate the System Folder on the computer's hard disk. Don't open the System
Folder.

2. Drag the file named "LaserWriter 8" to the System Folder.

3. A message appears asking if you want the LaserWriter 8 extension to be put
into the Extensions Folder. Click OK. If a second message appears stating that
LaserWriter 8 already exists and asks you if you would like to replace it, click
OK.

4. Open the Special menu and choose Restart.

IMPORTANT

If a second message does not appear, then your System Folder is missing some
files needed to use LaserWriter 8. Do the following:

1. Refer to the printed manual that came with your computer, and follow the
instructions for doing a custom installation.

2. In the Custom Install dialog box you'll see a list of items that can be
installed. Click the arrow to the left of the "Printing" check box to reveal the

list of printers.

3. Click to put an X in the "LaserWriter 8" checkbox.

4. Click Install. If a message appears stating that you have a newer version already installed, click Newer.

5. Quit the Installer. Open the Special menu and choose Restart.

This article is one of many available through the Apple Fax center. For a complete list of available fax documents, search the Tech Info Library for Apple Fax Document Index or call the Apple Fax line at 1-800-505-0171 and select document number 20000 (Apple Fax - Document Index - Product Support Literature). The Apple Fax center is available free of charge 24 hours a day, 7 days a week.

Article Change History:
02 Jul 1996 - Added Fax Doc word
01 Dec 95 - Changed title to better reflect contents.
