LaserWriter IINTX and Iif/IIg: Hard Drive Formats Are Different

Article Created: 31 October 1991

Article Last Reviewed:

Article Last Updated:

TOPIC -----

I have a hard drive formatted for and connected to my LaserWriter IINTX. Can I connect this hard drive directly to either a LaserWriter IIf or LaserWriter IIg without reformatting the drive?

DISCUSSION -----

The hard drive formats for the LaserWriter IINTX and Apple LaserWriter IIf and IIg are different. If you want to connect a hard drive formatted for the LaserWriter IINTX to an Apple LaserWriter IIf or IIg, you have to reformat the hard drive and reinstall the fonts with the LaserWriter Font Utility.
