Kanji: LaserWriter IINTX-J Is Recommended Solution

Article Created: 17 January 1992

Article Change History

09/22/92 - UPDATED

- To include information on Kanji TrueType and ATM-J fonts.

TOPIC -----

Is a Japanese version of the LaserWriter IIg available?

DISCUSSION -----

As of 2/8/92, a Japanese version of the LaserWriter IIg is not available. When Kanji Postscript is required, the LaserWriter IINTX-J is the recommended LaserWriter solution. Kanji TrueType and ATM-J fonts are also available and will enable high quality printing to QuickDraw printers. Copyright 1992, Apple Computer, Inc.
