TOPIC --

The LaserWriter IIf and IIg support HP PCL 4+ emulation. What fonts and
font cartridges does this emulation support?

DISCUSSION ---

The LaserWriter IIf and IIg support all built-in HP fonts in some capacity.

The LaserWriter IIf and IIg HP LaserJet IIP emulation does not provide any
of the fonts available in HP Font cartridges. However, you can download HP
fonts to the printers while they are in HP LaserJet IIP emulation mode in
the same way as it is done on the HP LaserJet IIP.

For a discussion on the differences between the HP LaserJet IIP and the HP
LaserJet IIP emulation provided by the LaserWriter IIf and IIg, refer to
the "LaserWriter IIf and IIg Owner's Guide" (pages 105 through 108).
