## LaserWriter Select 300: Description (2/93)

Article Created: 9 February 1993

TOPIC -----

This article describes the LaserWriter Select 300.

DISCUSSION -----

### Overview

-----

The Apple LaserWriter Select 300 provides high-quality laser printing, PostScript expansion, printer sharing from multiple Macintosh computers, and extensive paper-handling capabilities.

Designed for individual use, the LaserWriter Select 300 printer has 39 scalable TrueType fonts, including such popular font families as Times, Helvetica, and Palatino. The LaserWriter Select 300 also comes with Apple's FinePrint technology to smooth out lines and curves in your text.

You can add Apple's PhotoGrade technology to print documents containing graphics or images -- with over 90 levels of gray. Adobe Level I PostScript compatibility is available through the PostScript Option.

Apple's GrayShare software also lets you share your LaserWriter Select 300 with other users over a network.

The LaserWriter Select 300 features a standard cassette tray that holds 250 sheets of paper, and a manual paper feed tray. You can add an optional 250- or 500-sheet paper feeder, a 250-sheet legal cassette, an envelope cassette, and a multipurpose tray for paper or envelopes.

### Print quality
