LaserWriter Select 310: No Upgrades to LaserWriter 360 (4/95)

Article Created: 5 April 1995

TOPIC -----

Can I upgrade my LaserWriter Select 310 to the LaserWriter Select 360?

DISCUSSION -----

While the LaserWriter Select 310 and 360 look similar from the outside, internally these printers are very different. They have different I/O boards, controller boards, fuser assemblies, and print engines. While it is possible to replace all these items, it would end up costing more than purchasing a new LaserWriter Select 360.
