## LaserWriter Fax Log: Contains Status of Transmissions (9/94)

Article Created: 6 September 1994

TOPIC -----

Is there a way of determining the status of a fax transmission from one of the LaserWriter Select 360's optional fax cards?

DISCUSSION -----

LaserWriter Fax Log keeps a record of all the faxes you send from your computer through your fax-capable printer. Each time you send a fax, Fax Log adds to its list information about the recipient of the fax, the printer you used to send the fax, and the status of the transmission.
