LaserWriter Select 360: Prints Extra Information Page (10/94)

Article Created: 31 October 1994

TOPIC -----

When sending print jobs to my LaserWriter Select 360, I always receive an extra page with the following information printed on it:

```
User "User Name"
Application Print Monitrp
Document PS OHPH
Date Sat. Oct 22 94
Time 10:00 AM
Printer LaserWriter Select 360"
```

What is this page and can I disable it?

DISCUSSION -----

The LaserWriter 8 and later drivers let users specify whether a cover page is or isn't printed with each print job. The information you provided in your request indicates that the cover page feature is turned on. Once selected the buttons will remember a setting from the previous print job.

To modify the settings, select print from the File Menu within any application, and click the Options button. The very top option determines whether there should be a cover page, and whether it should print before or after a print job. Click the None radio button and cover pages will no longer print.
