LaserWriter Select 360 Fax Card Outside The U.S.A. (4/95)

Article Created: 10 April 1995

TOPIC -----

I live in the U.K. and I have a LaserWriter Select 360. The Fax card is not available here, and I would like to know if the Select 360 Fax card that is sold in the U.S. will work here?

Can I get information on what countries the Fax card is support? Also, is there any reason why the Fax cards are not available in certain countries?

DISCUSSION -----

The LaserWriter Select 360 and LaserWriter Pro 810 Fax cards are FCC compliant in the U.S. and Canada only. Therefore, they are not legally usable elsewhere because they have only been "certified" for the U.S. and Canada.

Certification by the equivalent FCC organization in the countries, in addition to providing hardware such as DAAs (Data Access Arrangements) to match the country's physical phone jacks, are the limiting factors to making the cards available to all countries.
