## **LaserWriter: Printing areas differ for printer engine and driver**

This article last reviewed: 18 February 1986

While the Canon engine has the capability of printing a 10.9 inch page, the LaserWriter driver sets the maximum image size to less than 10.9 inches. This is a feature of the LaserWriter driver dated February 10, 1986. The date appears in the Get Info window of the driver icon.
