## Personal LaserWriter NT: Envelope Centering Problem

Article Created: 29 April 1991

Article Last Reviewed:

Article Last Updated:

TOPIC -----

I am using a software utility to print envelopes on my Personal LaserWriter NT. I can't seem to get the address centered on the envelope.

DISCUSSION -----

There is nothing that can be done to center the print on the Personal LaserWriter NT. The printer positions the paper differently than Apple's LaserWriter II series of printers. To correct the problem, contact the manufacturers of the software you are using to see if they have a upgrade for the Personal LaserWriter NT.
