LaserWriter: Utility Provides List of Fonts

```
This article last reviewed: 3 October 1989

TOPIC ----------------------------------------------

Is there a program that prints a list of all fonts and their font ID numbers in
the LaserWriter?

DISCUSSION -----------------------------------------

The LaserWriter Font Utility provides the ability to list all fonts
currently installed in a LaserWriter.  The LaserWriter (PostScript) does
not use font ID numbers; all fonts are referred to by their proper names
(Courier, Helvetica, Times-Bold, and so on.
