PowerBook 5300: Portable StyleWriter Compatibilty (4/96)

Article Created: 8 November 1995
Article Reviewed/Updated: 25 April 1996

TOPIC ---

Is the Portable StyleWriter compatible with the PowerBook 5300?

DISCUSSION --

Setting Up
==========

Here are the steps to configure your PowerBook 5300 series computer to print to
a Portable StyleWriter.

Step 1

Installing the Portable StyleWriter driver with the Installer.

Step 2

Connecting the printer to your PowerBook 5300 series computer with a serial
cable.

Step 3

Pull down the Apple Menu and select Chooser.

Step 4

In the Chooser, if you were using LocalTalk, set AppleTalk to Inactive. If you
are using EtherTalk or IRTalk, you may keep AppleTalk Active.

Step 5

Select the Portable StyleWriter driver

Step 6

Select the Modem port icon (even though two icons appear, the PowerBook 5300
series computers have only one physical serial port and you need to select the
Modem port).

```
Notes
=====

1. The latest Portable StyleWriter driver shipped by Apple is v1.0.1 and is
posted online in all of the available Apple Software Updates areas.

These articles can help you locate the software update mentioned here:

• Where To Find Apple Software Updates
  Lists online services for "free" Apple software updates.

• Obtaining Apple Product Support in the USA
  Lists 800 numbers and online services for software updates, Apple
  support information, and a subset of the Apple Tech. Info. Library.

Article Change History:
22 Mar 1996 - Added information about latest Portable StyleWriter software.
25 Apr 1996 - Removed reference to SerialDMA.
