Article Last Updated:

TOPIC -----

This article describes the Apple StyleWriter driver software, version 7.2.2, as well as the fonts that are included with it.

DISCUSSION -----

Version 1.2 of the Apple StyleWriter software upgrade includes a new StyleWriter printer driver, version 7.2.2. It is designed to allow printing up to three times faster than the previous version. In addition, Apple will begin shipping seven new TrueType font families (22 individual typefaces) with the StyleWriter. The new software and fonts are fully compatible with System 7.

The StyleWriter can take as little as one third the time to print as previously needed. This speed improvement, plus the additional fonts and the StyleWriter's background printing capability (announced August 1991), provides new convenience for StyleWriter owners.

The new TrueType fonts bring the StyleWriter total to fifteen font families, or 39 individual typefaces, which can be smoothly scaled to any size on the printed page or screen. The fonts are:

- Chicago
- Courier
- Geneva
- Helvetica
- Helvetica Narrow
- ITC Avant Garde
- ITC Bookman
- ITC Zapf Chancery
- ITC Zapf Dingbats
- Monaco
- New Century Schoolbook
- New York
- Palatino
- Symbol
- Times
