Apple IIGS: Apple GS/OS 6.0 Supports the StyleWriter (7/94)

Article Created: 21 January 1992
Article Reviewed/Updated: 6 July 1994

TOPIC --

Can I use the StyleWriter with an Apple IIGS?

DISCUSSION ---

To use Apple GS/OS with the StyleWriter you need GS/OS 6.0, a hard drive and at least 1 megabyte of memory (more is preferred).

Earlier versions of Apple GS/OS do NOT support the StyleWriter.

Known Problem

• AppleWorks GS prints to the StyleWriter printer with GSOS 6.0. At full
  resolution of 360 dpi, however, full justification will not work and
  causes problems with spacing between words.

Work Around

• Choose half resolution (180 dpi), then full justification works.

Article Change History:
6 July 1994 - Added known problem.
5 May 93 - Revised to include hard disk and memory information.
