TOPIC -----

What is the shelf life of a StyleWriter Ink Cartridge?

DISCUSSION -----

The shelf life of a packaged StyleWriter Ink Cartridge is 18 months. However, if the package has been opened, the StyleWriter Ink Cartridge lasts for approximately 6 months.

Note

This 6-month estimate is applicable only if the StyleWriter Ink Cartridge is installed in the printer. Canon, the cartridge vendor, recommends that you don't unpackage the cartridge until you are ready to install it in the StyleWriter and, therefore, doesn't not provide shelf-life information for cartridges that are unpackageged but not installed in the printer.
