Artisen 1023 Plotter: Driver Is Available From MacPlot

This article last reviewed: 29 August 1989

TOPIC -----

I would like to use a Artisen 1023 Plotter with a Macintosh IIX. Is there a driver for the Macintosh, and how can I get it?

DISCUSSION -----

MacPlot is a Macintosh driver for multiple plotters; one of the plotters it supports is the Artisen 1023 Plotter.
