## Landscape vs. Portrait (4/93)

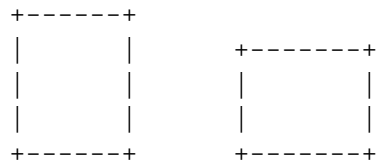

Article Created: 16 April 1993

TOPIC -----

In articles about displays, printers, and photographs I often read the terms "landscape" and "portrait." What do these terms mean?

DISCUSSION -----

- Portrait is the vertical orientation, in which the display or image is higher than it is wide.
- Landscape is the horizontal orientation, where the display or image is wider than it is high.

Portrait                  Landscape
