## SNA•ps Print: CEI Printer for Multipart Forms (2/94)

Article Created: 21 February 1994

TOPIC -----

Is there any printer that SNA•ps Print can use to print multipart forms?

DISCUSSION -----

CEI Systems has the CEI 420 printer, a 420 character-per-second dot-matrix impact printer suitable for multi-part forms. It prints forms including invoices, W-2 forms and other tax forms, and checks. It provides inexpensive, fast, high-quantity printing. A Macintosh-compatible driver is available, and seems to work quite well. Copyright 1994, Apple Computer, Inc.
