Company Profile:

They make the MC217 and MC218 PC modem cards which can be used in some Macintosh PowerBook computers. The MC217 is a 14.4 kbps data/fax PC card and the MC218 is a 28.8 kbps data/ 14.4 kbps fax PC Card. An update is available from the COM One for the MC218 which upgrades it to a 33.6 kbps data modem.
