Locating Vendor Information (3/95)

Article Created: 9 February 1995
Article Reviewed/Updated: 1 March 1995

TOPIC ---

How can I search for just a particular vendor's name, address, and phone number?
I have been trying to enter just the vendor name as my search string, but I get
too many articles and cannot find the phone number.

DISCUSSION --

This article, "Locating Vendor Information," suggests the best way to locate a
particular vendor's address and phone number without getting too many articles
which refer in some way to a company's products, but do not contain the company
address or phone number.

To locate a particular vendor's address and phone number only, use the vendor
name as a search string in addition to the keyword 3pty. 3pty refers to a third
party (non-Apple) company.

Sample Search Strings:

XYZ Company and 3pty
ABC Corporation and 3pty
123 and 3pty

The TIL article, "Tech Info Library: How to Search for Articles," contains a
list of useful keywords and instructions describing how to improve your
searching techniques.

Article Change History:
01 Mar 1995 - Added the title of the article, "Locating Vendor Information,"
              to the text to increase its relevancy ranking.
10 Feb 1995 - Added reference to "How to Search" article.
